Nemours Children's Hospital, Florida selects its Chief Radiologist as new Chief Medical Officer

Orlando, Fla. (July 14, 2022) -- Nemours Children's Hospital, Florida has announced that Daniel Podberesky, M.D., who rose to become the hospital's Radiologist-in-Chief since joining Nemours in 2014, will serve as the Chief Medical Officer (CMO) for the hospital and will oversee specialty care in Orlando for Nemours Children's Health, effective immediately. For the past 15 months, Dr. Podberesky has served as associate chief medical officer.

In his role as CMO, Dr. Podberesky will provide oversight of both the Nemours specialty care practice and medical operations for the hospital, which will celebrate its 10th anniversary in October.

"With his progressive professional experience leading organization transformation, Dr. Podberesky is well prepared to lead our talented physician team in Orlando," said Michael Erhard, M.D., Executive Vice President and Physician-in-Chief of Florida Operations. "Dr. Podberesky's continued dedication and leadership will be vital as our Orlando hospital enters its second decade of creating the healthiest generations of children."

When he joined Nemours in 2014 , Dr. Podberesky was a highly accomplished board certified general pediatric radiologist, as well as an Air Force Veteran. Prior to Nemours, he served as associate director of Clinical Services and chief of the Division of Thoracoabdominal Imaging at Cincinnati Children's Hospital Medical Center.

Dr. Podberesky has been instrumental in leading the way to integrate the Nemours Children's Radiology team across the multistate health system, which is currently one of the largest and busiest pediatric radiology departments in the country. In 2019, he completed the General Management Program at the Wharton School of the University of Pennsylvania, and is currently a professor of radiology at the University of Central Florida College of Medicine.

Dr. Podberesky will remain an active Nemours Children's radiologist and continue in his role as enterprise radiologist-in-chief until a successor is named.

About Nemours Children's Health

Nemours Children's Health is one of the nation's largest multistate pediatric health systems, which includes two free-standing children's hospitals and a network of more than 70 primary and specialty care practices. Nemours Children's seeks to transform the health of children by adopting a holistic health model that utilizes innovative, safe, and high-quality care, while also caring for the health of the whole child beyond medicine. Nemours Children's also powers the world's most-visited website for information on the health of children and teens, Nemours KidsHealth.org.

The Nemours Foundation, established through the legacy and philanthropy of Alfred I. duPont, provides pediatric clinical care, research, education, advocacy, and prevention programs to the children, families and communities it serves. For more information, visit Nemours.org.
