

Nemours Children's Health and Blessings in a Backpack partner to pack 1,000 healthy weekend meal packs for local school children

Orlando, Fla. (April 18, 2023)- Because it is estimated that one in every five children in Central Florida struggles with access to food, **Nemours Children's Health** hosted a volunteer event with **Blessings in a Backpack**, a local nonprofit organization committed to reducing the food gap for school-aged children, to pack 1,000 healthy weekend meal packs to local students at Winegard Elementary enrolled in the free lunch program.

This event is part of **Nemours Cares Week**, a bi-annual week of impact service through employee volunteerism. Now in its 10th year, **Nemours Cares provides** a week of opportunities for associates to volunteer and help the communities in which they live.

During the celebration of its 10th year since opening in Orlando, last Fall, Nemours Children's Hospital, Florida announced that it has enhanced its partnership with Blessings in a Backpack. The partnership ensures that students enrolled in the free-lunch program will have nutritious foods on the weekends and during holiday breaks. Nemours Children's has committed to providing food to eligible students at Winegard Elementary in Orange County, Boggy Creek Elementary in Osceola County, and Layer Elementary in Seminole County through the end of the school year.

About Nemours Children's Health

Nemours Children's Health is one of the nation's largest multistate pediatric health systems, which includes two free-standing children's hospitals and a network of more than 70 primary and specialty care practices. Nemours Children's seeks to transform the health of children by adopting a holistic health model that utilizes innovative, safe, and high-quality care, while also caring for the health of the whole child beyond medicine. Nemours Children's also powers the world's most-visited website for information on the health of children and teens, Nemours KidsHealth.org.

The Nemours Foundation, established through the legacy and philanthropy of Alfred I. duPont, provides pediatric clinical care, research, education, advocacy, and prevention programs to the children, families and communities it serves. For more information, visit [Nemours.org](https://nemours.org).
