

Nemours Cares: Hospital Leadership Team Helps to Address Food Insecurity with Blessings in a Backpack Event

Editor's Note: Video interviews, B-roll are available for download on [this page](#).

To show Nemours' commitment to boosting the health of our community, executives from Nemours Children's Hospital, Florida partnered with Blessings in a Backpack to fill backpacks to be shared with students on the free lunch programs at Winegard Elementary School. This community gift bridges the gap between a child's school lunch on Friday and breakfast on Monday.

About Nemours Children's Health

Nemours Children's Health is one of the nation's largest multistate pediatric health systems, including two free-standing children's hospitals and a network of more than 70 primary and specialty care practices. Nemours Children's seeks to transform the health of children by adopting a holistic health model that utilizes innovative, safe, and high-quality care, while also caring for the health of the whole child beyond medicine. Nemours Children's also powers the world's most-visited website for information on the health of children and teens, KidsHealth.org.

The Nemours Foundation, established through the legacy and philanthropy of Alfred I. duPont, provides pediatric clinical care, research, education, advocacy, and prevention programs to the children, families and communities it serves.
