

Nemours Children's Health Upcoming Webinar: Baby Formula Shortage – What Parents Need to Know

MEDIA ADVISORY for Virtual Event Tuesday, May 24 at 6 p.m.

WHAT: A recent recall of baby formula due to contaminated products, along with supply issues and staffing shortages related to the COVID-19 pandemic, has led to a baby formula shortage.

Join trusted experts from Nemours Children's Health during a free virtual event as they discuss the latest available information about the baby formula shortage, answer questions and more.

WHEN: Tuesday, May 24 at 6:00 p.m. EST

WHERE: To attend, advance registration is required, please register [here](#). A recording of the event will be available afterward.

WHO:

- James Franciosi, MD, division chief, gastroenterology, Nemours Children's Health, Florida
- Elana Pearl Ben-Joseph, MD, MPH, medical editor and pediatrician, Nemours Children's Health
- Aimee Molineaux, RD, clinical dietitian, Nemours Children's Health, Florida
- Molly Beitman, RD, clinical dietitian, Nemours Children's Health, Delaware

About Nemours Children's Health

Nemours Children's Health is one of the nation's largest multistate pediatric health systems, including two free-standing children's hospitals and a network of nearly 75 primary and specialty care practices. Nemours Children's seeks to transform the health of children by adopting a holistic health model that utilizes innovative, safe, and high-quality care, while also caring for the health of the whole child beyond medicine. Nemours Children's also powers the world's most-visited website for information on the health of children and teens, KidsHealth.org.

The Nemours Foundation, established through the legacy and philanthropy of Alfred I. duPont, provides pediatric clinical care, research, education, advocacy, and prevention programs to the children, families and communities it serves.
