

Nemours Children's Primary Villages Plans Expansion

Orlando, Fla. (March 18, 2021)

– Nemours Children's Primary Care in The Villages, Florida, is moving to a larger space, located just upstairs from its

current location, effective March 29. The new Nemours Children's Primary Care is located at 1400 U.S. Highway 441 North, and will now be in Suite 532, The Villages, Fla. 32159. The office phone number remains the same: (352) 560-7337.

This new space will allow for more children and teens to have the exceptional pediatric primary care that Nemours Children's Health System is known for. The practice will grow from three to eight patient rooms, which will allow for additional services and increased efficiency

“We will continue to prioritize the safety of our patients and staff. The additional space will allow improved social distancing, and decreased wait times. We are happy to be able to offer more outpatient procedures for the convenience of our patients,” said Dr. Odett Stanley-Brown, the Pediatrician at The Villages Nemours Children's Primary Care practice. She and Cristen Cox, APRN, her partner, are both excited to continue to welcome new patients. The practice sees patients from areas surrounding The Villages –near and far- including Leesburg, Clermont, Ocala, and Crystal River.

About Nemours Children's Health System

[Nemours](#) is an internationally recognized children's health system that owns and operates the two free-standing children's hospitals: the Nemours/Alfred I. duPont Hospital for Children in Wilmington, Del., and Nemours Children's Hospital in Orlando, Fla., along with outpatient facilities in five states, delivering pediatric primary, specialty and urgent care. Nemours also powers the world's most-visited website for information on the health of children and teens, [KidsHealth.org](#), and offers on-demand, online video patient visits through Nemours [CareConnect](#). [Nemours ReadingBrightstart.org](#) is a program dedicated to preventing reading failure in young children, grounded in Nemours' understanding that child health and learning are inextricably linked, and that reading level is a strong predictor of adult health.

Established as [The Nemours Foundation](#) through the legacy and philanthropy of Alfred I. duPont,

“*Nemours will continue to prioritize the safety of our patients and staff. The additional space will allow improved social distancing, and decreased wait times. We are happy to be able to offer more outpatient procedures for the convenience of our patients,*” said Dr. Odett Stanley-Brown, the *Pediatrician at The Villages Nemours Children's Primary Care practice.*”

Nemours provides pediatric clinical care, research, education, advocacy and prevention programs to families in the communities it serves.
