

Join Nemours Children's Health at the Orlando Science Center for an Un-BEAR-ably Fun Weekend of Health Education

Editor's note: Downloadable video interviews, footage from this event are now available.

Teddy Bear Affair

November 13 - 14, 10:00 a.m. - 4:00 p.m.

Dr. Dare's Lab at Orlando Science Center

WHO: Nemours Children's Health will be hosting a teddy bear clinic in Dr. Dare's Lab at Orlando Science Center. This collaboration helps children and families have fun educational opportunities that can benefit long-term health and wellness.

WHAT: Visitors are invited to bring their teddy bears, or teddy bears will be provided, for a check-up to make sure their special friend is in tip-top shape. Nemours Children's Health will offer a variety of activities from Specialty Care departments that include Ophthalmology, Gastroenterology, Radiology, ENT and more!

WHY: This event helps teach children about the importance of health and wellness and makes them more comfortable with visiting a medical professional, both inside and outside of a healthcare setting.

COST: This event is included in admission to Orlando Science Center, which is FREE for members*, \$21 for adults, \$19 for seniors and students, and \$15 for youth (ages 2 – 11). Tickets include access to all four floors of exhibits, giant-screen and 3D educational films, and live programming. Tickets are available online only at www.osc.org/tickets

NOTE: While in attendance, all guests are asked to please follow social distancing guidelines and wash or disinfect hands frequently. To limit the transmission of germs Orlando Science Center will require face coverings for all visitors ages 3 and up, regardless of vaccination status.

INFO: For details, tickets and safety guidelines, please visit www.osc.org.

ABOUT NEMOURS CHILDREN'S HEALTH:

Nemours Children's Health is one of the nation's largest multistate pediatric health systems, including two free-standing children's hospitals and a network of nearly 75 primary and specialty care practices. Nemours Children's seeks to transform the health of children by adopting a holistic health model that utilizes innovative, safe, and high-quality care, while also caring for the health of the whole child beyond medicine. Nemours Children's also powers the world's most-visited website for information on the health of children and teens, KidsHealth.org.

The Nemours Foundation, established through the legacy and philanthropy of Alfred I. duPont, provides pediatric clinical care, research, education, advocacy, and prevention programs to the children, families and communities it serves.
