

Stacy A. White Jr., MD, Named New Division Chief of Interventional Radiology at Nemours Children's Health, Jacksonville

JACKSONVILLE, Fla. (Oct. 24, 2025) – Nemours Children's Health, Jacksonville has named Stacy A. White Jr., MD, the Division Chief of Interventional Radiology.

"Dr. White's expertise, combined with his passion for delivering outstanding patient care, makes him the ideal leader to drive innovation and excellence in our radiology services," said Andrew Stec, MD, MBA, Vice President and Chief Medical Officer of Nemours Children's Health, Jacksonville. "His vision for enhancing collaboration across specialties and expanding our interventional radiology capabilities will undoubtedly benefit our patients and families."

Dr. White has been a key member of the Nemours Children's team for the past five years. In his new capacity, he will focus on strengthening collaboration across specialties, expanding inpatient consultation services, and streamlining workflows to improve access to interventional radiology services. With a strong emphasis on safety and exceptional care, Dr. White will partner with key stakeholders to thoughtfully expand regional operations.

Dr. White earned his medical degree from the University of Connecticut School of Medicine. He completed his residency in diagnostic radiology at Jefferson Einstein Philadelphia Hospital, followed by fellowships in diagnostic radiology and interventional radiology at the Children's Hospital of Philadelphia.

He is board-certified by the American Board of Radiology and is an American Board of Radiology Subspecialist in pediatric radiology.

"Dr. White's expertise, combined with his passion for delivering outstanding patient care, makes him the ideal leader to drive innovation and excellence in our radiology services," said Andrew Stec, MD, MBA, Vice President and Chief Medical Officer of Nemours Children's Health, Jacksonville. "His vision for enhancing collaboration across specialties and expanding our interventional radiology capabilities will undoubtedly benefit our patients and families."

About Nemours Children's Health

Nemours Children's Health is one of the nation's largest multistate pediatric health systems, which includes two freestanding children's hospitals and a network of more than 70 primary and specialty care practices. Nemours Children's seeks to transform the health of children by adopting a holistic health model that utilizes innovative, safe, and high-quality care, while also addressing children's needs well beyond medicine. In producing the highly acclaimed, award-winning pediatric medicine podcast Well Beyond Medicine, Nemours underscores that commitment by featuring the people, programs and partnerships addressing whole child health. Nemours Children's also powers the world's most-visited website for information on the health of children and teens, Nemours [KidsHealth.org](https://kidshealth.org).

The Nemours Foundation, established through the legacy and philanthropy of Alfred I. duPont, provides pediatric clinical care, research, education, advocacy, and prevention programs to the children, families and communities it serves. For more information, visit [Nemours.org](https://nemours.org).
