

Nemours Children's Health Announces \$5.2 million gift from the Daily's Foundation to Support New World-Class Conference Center

Daily's Foundation exceeds \$10 million in charitable support for Nemours Children's Health since 2019

JACKSONVILLE, Fla. (Nov. 21, 2025) — Nemours Children's Health, Jacksonville announced today a \$5.2 million donation from the Daily's Foundation to support the creation of a world-class conference center at its specialty care location in San Marco.

Nemours Children's and the Daily's Foundation have a longstanding partnership, reinforcing a shared mission to improve the health and well-being of children and families. Since the partnership's inception in 2019, the Daily's Foundation has donated more than \$10 million to elevate the health of children in Northeast Florida.

In 2020, the Daily's Foundation donated \$5 million to support enhancements of facilities in Jacksonville, with a special focus on the Nemours Children's Center for Cancer and Blood Disorders — now known as THE PLAYERS Center for Cancer and Blood Disorders. The [Daily's Foundation Pavilion](#) at Nemours Children's specialty care location in San Marco was officially dedicated in August 2021.

"The Daily's Foundation's gift helps Nemours to advance our academic mission. It creates a collaborative hub for healthcare professionals and community partners to develop approaches to improve the lives of children and families in Northeast Florida and beyond," said R. Lawrence Moss, MD, FACS, FAAP, President and CEO of Nemours Children's Health. "Daily's support underscores the power of community-driven partnerships in shaping a brighter future for the children we serve."

The gift will help revitalize and redevelop the first floor of the Daily's Foundation Pavilion into a multipurpose conference center, offering collaborative space for leaders from the private, nonprofit and public sectors to advance pediatric health. It will provide dedicated facilities for education, community engagement, and professional collaboration, further strengthening Nemours Children's leadership role in pediatric care and innovation.

Since partnering in 2019, the Daily's Foundation has launched multiple community fundraising campaigns, including the "Help Spread Hope to Children Everywhere" fundraising campaign in 78 of its stores across North Carolina and Florida. It has hosted the Daily's Foundation Charity Golf Tournament and organized the inaugural Daily's Foundation Concert at Daily's Place.

"This gift affirms our commitment to improving the health and wellbeing of children and families in our community," said Aubrey Edge, President & CEO of Daily's. "We are honored to continue our partnership with Nemours Children's Health and to support the development of a world-class conference center in Jacksonville that will enhance education, foster innovation, and strengthen their outstanding programs and clinicians. The Daily's Foundation is proud to stand alongside Nemours Children's Health in shaping a healthier future for our community."

About Nemours Children's Health

Nemours Children's Health is one of the nation's largest multistate pediatric health systems, which includes two freestanding children's hospitals and a network of more than 70 primary and specialty care practices. Nemours Children's seeks to transform the health of children by adopting a holistic health model that utilizes innovative, safe, and high-quality care, while also addressing children's needs well beyond medicine. In producing the highly acclaimed, award-winning pediatric medicine podcast Well Beyond Medicine, Nemours underscores that commitment by featuring the people, programs and partnerships addressing whole child health. Nemours Children's also powers the world's most-visited website with health information written for parents, kids and teens, Nemours [KidsHealth.org](https://www.kidshealth.org).
